

HOUSE OF ASSEMBLY

ESTIMATES COMMITTEE B

27-29 June and 2-4 July 2007

POLICE RECRUITMENT ADVERTISING

In reply to **Mr VENNING**.

The Hon. P. HOLLOWAY: Amount spent on advertising to recruit police officers within South Australia since January 2006:

Television	\$245,720
Bus shelters	\$70,475
Press	\$128,476
Internet	\$3,500
Radio	\$68,856
Total	\$517,027

The amount spent on advertising is inclusive of advertising bookings only. No agency costs were incurred during this period.

RECRUITMENT MEDIA TRAINING

In reply to **Mr VENNING**.

The Hon. P. HOLLOWAY: The South Australia Police Media Section conducts media training which is provided to a range of SAPOL employees at various levels in the organisation as part of their general training and development.

No specific media training has been provided to or undertaken by those employees who participated in the production of advertising linked to police recruitment and no costs were incurred in this regard.

APY LANDS POLICING COSTS

In reply to **Mr HANNA**.

The Hon. P. HOLLOWAY: Policing costs for the APY Lands for 2006-07 were \$2.43 million based on an assessment of cost centres that contribute to policing on the APY Lands.

Costs for the APY Lands encompassed AP Lands Police Station, Marla Bore Police Station, Indulkna Police Station, Pipalyatjara Police Stations, Northern Operations Service relief pools and Operation Midrealm and Operation Pitulu Wantima.

Estimated operating costs for 2007-08 are \$2.51 million. In addition to this, an amount of \$1.25 million has been budgeted for the construction of a Police Station cells and courtroom complex at Amata.

RECRUIT 400

In reply to **Mr VENNING**.

The Hon. P. HOLLOWAY: During 2006-07 a total of 100 additional police positions were allocated under Recruit 400. Six of these positions were allocated directly to country Local Service Areas (LSA), namely:

- Far North LSA (Port Augusta)—one
- Riverland LSA (Berri)—one

- South East LSA (Mount Gambier)—one
- Hills-Murray LSA (Mount Barker)—three

Together with other (non Recruit 400) initiatives, this increased the total number of country positions from 755 in July 2006 to 772 positions in June 2007.

In terms of policing resources available for country areas, it should be recognised that other Recruit 400 allocations have indirectly provided additional support resources. Northern Operations Service and Southern Operations Service each received ten Recruit 400 positions to establish Tactical Units to be deployed anywhere in the State as determined by the relevant Assistant Commissioner. A further 40 of the Recruit 400 have been allocated to areas such as the Paedophile Task Force, Traffic Operations Section, STAR Group, Coronial Investigation Section, Police Corrections Section, Investigation Support Branch and Sex Crime Investigation Branch. In accordance with corporate criteria and the individual circumstances of each case, these areas have a responsibility for response to country areas.

Police recruiting targets are set against an overall attrition rate, and there is no attrition measurement specific to country areas. Staffing in country areas is monitored and assessed on a constant basis. At a corporate level, monitoring is achieved through measuring the percentage of establishment positions vacant at any one time. During the 2006-07 financial year, the country vacancy rate (calculated monthly) varied between 6.1 per cent and 10.6 per cent, and was 9.1 per cent at the end of June 2007.

In summary, during 2006-07 six Recruit 400 positions were directly allocated to specific country locations (contributing to an overall increase of 17 country positions in 2006-07). A further 60 positions were allocated to a variety of specialist areas, each with a responsibility inclusive of country areas. The remaining 34 allocated positions have no direct or indirect support role to country policing.

SURPLUS EMPLOYEES

In reply to **Mr WILLIAMS**.

In reply to **Mr GRIFFITHS**.

In reply to **Mrs REDMOND**.

The Hon. P. HOLLOWAY: Surplus Employees as at 30 June 2007

Minister for Police

As at 30 June 2007, SAPOL had 23 surplus employees. The following table provides the numbers, the classifications, and the total employment cost of each. The total employment cost has been calculated by adding a notional 'on-costs' component of 24 per cent to base salary in each case.

Classification	Total Employees	Cost per Employee
MAS-3	1	\$106,168
ASO-7	1	\$91,407
ASO-6	1	\$82,092
ASO-5	2	\$72,934
ASO-4	1	\$62,816
ASO-3	1	\$55,139
ASO-2	2	\$48,243
ASO-1	5	\$38,242
GSE-2	6	\$41,251
GSE-5	1	\$45,328
OPS-4	1	\$64,453
TGO-2	1	\$64,482
TOTAL	23	

Minister for Mineral Resources Development; Minister for Urban Development and Planning

Department/Agency	Position Title	Classification	TEC Cost
Department of Primary Industries and Resources SA	Business Analyst	ASO7	\$98,513
Department of Primary Industries and Resources SA	Business Services Officer	ASO6	\$87,257
TOTAL:			\$185,770

STAFFING LEVELS, YALATA

In reply to **Mr HANNA**.

The Hon. P. HOLLOWAY: Response times have decreased as a result of the presence of a second officer based at Yalata, as shifts are staggered to cover regulation days off. This allows more incidents to be responded to direct from Yalata rather than Penong.

When there is no sworn officer presence at Yalata, regardless of the reason, Penong personnel base themselves at Yalata on Thursdays, Fridays and Saturdays.

The following are the average response times from Yalata:

ON DUTY	Priority A	5 minutes depending on location within community
---------	------------	--

ON DUTY Priority B	5 minutes depending on location within community	· Treasurer's Instructions 19.6
OFF DUTY Priority A	15 minutes responding from home address	· Accounting Policy Framework (APF), No. 2—APS 4.8 (a + b)
OFF DUTY Priority B	15 minutes responding from home address.	· Accounting Policy Framework (APF), No. 6 Definitions ('normal remuneration')

POSITIONS ABOLISHED AND CREATED

In reply to **Mrs REDMOND.**

The Hon. P. HOLLOWAY:

Minister for Police

The question seeking the job title and total employment cost of each position with a total estimated cost of \$100,000 or more which:

- was abolished, or
- was created

In the period from 30 June 2006 to 30 June 2007, has been considered with reference to the following documents in preparing a response:

These documents ordinarily require a detailed and precise calculation of the 'total employment cost', however, in the case of sworn (Police Act) positions this is not possible. The cost is variable in every case depending on the occupant of the position. Different salary increment levels can apply in each case, and are themselves subject to change from time to time. In turn, this affects other payments which need to be included in the calculation (for example, the amount payable by the employer as superannuation contribution).

For these reasons, the 'total employment cost' for sworn (Police Act) positions has been calculated and provided as an approximation, based on the costs associated with the individuals for the time being occupying the positions.

POSITIONS ABOLISHED—TEC OF \$100,000 or more:

Department/Agency	Position Title	TEC Cost
South Australia Police (SAPOL)	Director, Human Resources Service	\$172,571.75

POSITIONS CREATED—TEC OF \$100,000 or more:

Department/Agency	Position Title	TEC Cost
South Australia Police (SAPOL)	Assistant Commissioner, Human Resources Service	\$190,000.00
South Australia Police (SAPOL)	Assistant Commissioner, Performance Management & Reporting Service	\$192,000.00
South Australia Police (SAPOL)	Operations Inspector, Hills/Murray LSA	\$113,000.00
South Australia Police (SAPOL)	Coordinator (Inspector) Protective Security Service	\$113,000.00
South Australia Police (SAPOL)	Coordinator (Inspector) Performance Management and Reporting Service	\$113,000.00

Minister for Mineral Resources Development

Minister for Urban Development and Planning

No positions that have total employment costs of \$100,000 or more were created during 2006-07 and none were abolished, within the Department of Primary Industries and Resources, relating to my ministerial responsibility.

EXPENDITURE ON GRANTS

In reply to **Mrs REDMOND.**

In reply to **Mr WILLIAMS.**

In reply to **Mr GRIFFITHS.**

The Hon. P. HOLLOWAY: In 2005-06 and 2006-07, SAPOL paid \$3,000,000 grant funding to the Australian Crime Prevention Council. The grant funding was used in the support of the Australian Crime Prevention Council as a national body.

Grant funding in 2005-06 and 2006-07 of \$93,000,00 and \$97,000,000 respectively were paid to Safer Communities Australia Inc. This grant funding was used for expenses related to raising awareness about public safety and the recruitment of new volunteers. Grant agreements are required as per Treasurer's Instruction 15. Corrective action is being taken to formalise agreements from 2007-08.

2005-06 (South Australia Police)

Name of Grant Recipient	Amount of Grant	Purpose of Grant	Subject to Grant Agreement (Y/N)
Australian Crime Prevention Council	\$ 3,000	For the support of the Australian Crime Prevention Council as a national body.	N
Safer Communities Australia Inc	\$93,000	This grant funding was used for expenses related to raising awareness about public safety and the recruitment of new volunteers.	N

2006-07 (South Australia Police)

Name of Grant Recipient	Amount of Grant	Purpose of Grant	Subject to Grant Agreement (Y/N)
Australian Crime Prevention Council	\$ 3,000	For the support of the Australian Crime Prevention Council as a national body.	N*
Safer Communities Australia Inc	\$97,000	This grant funding was used for expenses related to raising awareness about public safety and the recruitment of new volunteers.	N *

* To be formalised for 2007-08

2005-06
(Primary Industries and Resources SA—Minerals and Energy Resources)

Name of Grant Recipient	Amount of Grant	Purpose of Grant	Subject to Grant Agreement (Y/N)*
Department of Water, Land and Biodiversity Conservation (DWLBC)	\$155,792	Maintenance and servicing of geophysical, seismic and radio equipment.	Not applicable
Department of Further Education, Employment, Science and Technology (DFEEST)	\$2,500,000	State funding for the Australian minerals Science Research institute (AMSRI)	Not applicable
Cooperative Research Centre—Landscape Environments and Mineral Exploration (LEME)	100,000	State contribution to the Cooperative Research Centre for landscape environments and mineral exploration—Applying regolith (mantel rock) science to the challenges facing Australia in natural resource management and mineral exploration	Y
University of Adelaide	131,775	Australian Research Council (ARC) projects into geological framework for Gawler Craton	Not applicable
Commonwealth Scientific and Industrial Research Organisation (CSIRO)	7,400	Contribution to Commonwealth Council Research grant into generating gold in the Gawler Craton	Not applicable
Department of Administrative and Information Services (DAIS)	45,875	Facilities management of the core library and other facilities	Not applicable
Extractive Industry Association of SA	14,600	Undertake review of Golden Grove Extractive Industries Zone	N—Joint funding with Tea Tree Gully Council and industry subject to overview of a Joint review Committee
University of Adelaide	20,000	Studies into site toxicology and Brukunga Mine site	Not applicable
Department of Administrative and Information Services (DAIS)	241,307	Managing and contracting the demolition of old infrastructure at the Pt Pirie uranium processing site	Not applicable
Roxby Downs Council	1,061,680	State contribution for Roxby Downs Council deficit as required under the <i>Roxby Downs (Indenture Ratification) Act 1982</i>	Requirement of Roxby Downs Indenture
Plan for Accelerated Exploration—Drilling program (various grant recipients)	2,061,188	Contributions to investigate drilling to stimulate exploration activity	Y
University of Adelaide	300,000	Funding for Chair of Centre in Mineral Exploration Under Cover in SA—as part of Plan for Accelerated Exploration program	Not applicable
Department for Environment and Heritage (DEH)	300,000	Funding to undertake biological survey as part of the Balancing Resource Development theme of the Plan for Accelerated Exploration	Not applicable
Plan for Accelerated Exploration—Regional Development & Sustainable Communities (various grant recipients)	199,090	Funding for regional communities, educational institutions and anthropological research	Y
Plan for Accelerated Exploration—Baseline geochem Studies (various grant recipients)	84,039	Research funding for Australian research Council projects aiding the search for diamonds in Sa and supporting the Adelaide University Centre in Mineral Exploration Under Cover in SA	Not applicable
Commonwealth Scientific and Industrial Research Organisation (CSIRO)	5,937	Contribution to research agreement to engage with International Union of Geological Sciences (IUGS) Commission for Geoscience Information and development of International Geoscience information and development of International Geoscience data models—Part of Plan for Accelerated Exploration program	N
Geodynamics Power Systems Pty Ltd	34,627	Study to look into the feasibility of hot fractured rock geothermal industry in Australia	N
University of Adelaide	21,400	Contribution for value adding to data and presentation of information at American Association of Petroleum Geologists International Conference held in Perth WA	Not applicable

2005-06
(Primary Industries and Resources SA—Minerals and Energy Resources)

Name of Grant Recipient	Amount of Grant	Purpose of Grant	Subject to Grant Agreement (Y/N)*
University of Adelaide	120,000	Contribution to Chair of Australian School of Petroleum	Not applicable
Total	7,404,710		

*Not applicable—Not subject to Treasurer's instruction No. 14.

2006-07
(Primary Industries and Resources SA—Minerals and Energy Resources)

Name of Grant Recipient	Amount of Grant	Purpose of Grant	Subject to Grant Agreement (Y/N)*
Cooperative Research Centre—Landscape Environments and Mineral Exploration (LEME)	100,000	State contribution to the Cooperative Research Centre for landscape environments and mineral exploration—Applying regolith science to the challenges facing Australia in natural resource management and mineral exploration	Y
University of Adelaide	60,850	Contributions to the University of Adelaide for PhD research into 1850 Geotechnics in the Gawler Craton, the link between the Curnamona and Gawler Craton, geology of the Musgrave Province and Australian research Council (ARC) projects into the Musgrave Province	Not applicable
Department of Water, Land and Biodiversity Conservation (DWLBC)	1,500	For rehabilitation Mt Gee Arkaroola	Not applicable
Department for Transport, Energy and Infrastructure (DTEI)	211,210	Managing site works at Brukunga as part of Brukunga Mine Rehabilitation project	Not applicable
Roxby Downs Council	724,481	State contribution for Roxby Downs Council deficit as required under the <i>Roxby Downs (Indenture Ratification) Act 1982</i>	Requirement of Roxby Downs Indenture
Plan for Accelerated Exploration—Drilling program (various grant recipients)	1,309,382	Contributions to investigative drilling to stimulate exploration activity	Y
Department for Transport Energy and Infrastructure (DTEI)	96,396	Transfer to Building Management for core store upgrades as part of Plan for Accelerated Exploration Drilling Program	Not applicable
Department for Environment and heritage (DEH)	206,000	Funding to undertake biological surveys as part of the Balancing Resource Department theme of the Plan for Accelerated Exploration	Not applicable
University of Adelaide	50,000	Contribution for Professor for Mining Geology as part of Plan for Accelerated Exploration program	Not applicable
University of Adelaide	300,000	Funding for Chair of Centre in Mineral Exploration Under Cover in SA—as part of Plan for Accelerated Exploration program	Not applicable
Plan for Accelerated Exploration—Regional Development & Sustainable Communities (various grant recipients)	600,464	Funding for regional communities and for anthropological research	There are various grant recipients relating to this PACE program. Not applicable and Y
Plan for Accelerated Exploration—Baseline Geochem Studies (various grant recipients)	151,188	Research funding for Australian Research Council (ARC) projects into geological framework for Gawler Craton and aiding the search for diamonds in SA	Y
AMIRA International	12,500	Research funding into down hole Uranium logging tools under the Plan for Accelerated Exploration program	Y
Port Augusta TAFE	30,000	Contribution to Polly Farmer Foundation which provides improved opportunities for Aboriginal students	Not applicable
Monash University	2,000	Contribution for 2007 Australian Study Mineral Venture	Not applicable
Opal Symposium Incorporated, Coober Pedy (more than 1 grant)	10,000	Contribution to National Opal Symposium 2007	Not applicable

2006-07
(Primary Industries and Resources SA—Minerals and Energy Resources)

Name of Grant Recipient	Amount of Grant	Purpose of Grant	Subject to Grant Agreement (Y/N)*
Northern Regional Development Board	17,000	Contribution to the NRDB staffing	N
Global Maintenance Upper Spencer Gulf	2,727	Sponsorship for 2007 Global Maintenance Upper Spencer Gulf Resources Conference	Not applicable
University of Adelaide	16,000	Research funding into mobility of metals	Not applicable
ALARM and Whyalla Heritage Aboriginal Corporation	26,000	Assistance to enable Aboriginal people to attend the Mining & Exploration conference, Perth	N
Department of Industry Tourism and Resources	7,127	State contribution to National Mine Safety Framework Implementation	N
Department of Industry Tourism and Resources	4,920	State contribution to Ministerial Council on Energy, Ministerial Council on Mineral & Petroleum Resources (MCE/MCMPR) Natural Gas Joint Working Group	Not applicable
University of Adelaide	271,000	To establish a mineral resources and heavy engineering skills centre	Not applicable
University of Adelaide	55,673	Research funding into analysis of induced seismicity risk due to enhanced geothermal system operations in SA	Not applicable
Renewable Energy Generators	8,000	Joint contribution with Petrotherm, Geodynamics, and geoscience Australia towards the cost of bringing Dr Jefferson (author of 'Future of Geothermal Energy') to present at the Community and Economic Development Association luncheon and meetings with the SA government, Federal government, Federal government agencies and with Geodynamics' board	N
University of Adelaide	120,000	Contribution to Chair of Australian School of Petroleum	Not applicable
JRS Petroleum Research	500	Contribution to Society of Petroleum Engineers Technical Education Forum	Not applicable
Australian Pipeline Industry Association Ltd	1,500	Contribution to Australian Pipelines Standards seminar	Not applicable

TRANSADELAIDE POLICIES AND PROCEDURES

In reply to **Dr McFETRIDGE**.

The Hon. P.F. CONLON: As a result of this audit finding in 2005-06, documented procedures have been provided in these areas. Further development of these will take place during 2007-08 as part of continuous improvement processes.

STURT ROAD/MORPHETT ROAD PROPERTY

In reply to **Mr HANNA**.

The Hon. P.F. CONLON: The Department for Transport, Energy and Infrastructure has identified the extent of land on the north western corner of the Sturt Road/Morphett Road intersection that may be required for a potential future upgrade of the inter-

section. The property owner has been made aware of this potential requirement.

The Department does not have any intention to undertake any improvements to the intersection that would require this land in the short term. No funding has been allocated for these improvements.

The Department has not undertaken an evaluation of the value of the land that may be required for a potential future intersection upgrade.

WIDENING OF MORPHETT ROAD

In reply to **Mr HANNA**.

The Hon. P.F. CONLON: The Department for Transport, Energy and Infrastructure has advised me that there are currently no plans to undertake improvements to widen Morphett Road between Diagonal Road and Sturt Road in the coming financial year. No concept planning work has been undertaken relating to any potential future widening of the road.

The Department has investigated the potential installation of a central median on the existing road. This investigation found that the existing road width was insufficient to accommodate the median.

In late 2005 the City of Marion temporarily banned access to Sunshine Avenue from Morphett Road for a two-month trial. Community consultation following the trial showed that the majority of residents did not support this restriction. As a result it is understood that Council does not intend to permanently enforce the restriction.

TRANSADELAIDE BORROWING COSTS

In reply to **Dr McFETRIDGE**.

The Hon. P.F. CONLON: The \$17.64 million increase in Other Income in 2007-08 bring to account the previously unamortised balance of capital grants received related to assets transferring from TransAdelaide ownership during the 2007-08 fiscal year.

This accounting treatment varies from general government accounting due to the requirement of TransAdelaide to adopt Australian International Financial Reporting Standards (AIFRS) due to its status as a PNFC.

TRANSADELAIDE INCOME

In reply to **Dr McFETRIDGE**.

The Hon. P.F. CONLON: The \$3.449 million borrowing costs as shown in the 2007-08 budget are overstated and should have been shown as \$2.846 million. A correction will be processed as part of the Mid Year Budget Review.

The \$2.846 million represents estimated interest expense (7.5 per cent) and associated government guarantee fees (0.65 per cent) for the first six months of the year on the \$69.824 million debt balance as at 30 June 2007.

All TransAdelaide debt is through the South Australian Financing Authority (SAFA). Interest payments are quarterly in arrears. A \$2.69 million repayment is scheduled for 31 December 2007, with the remaining balance of \$67.134 million being cleared as a result of the rail asset ownership restructure.

FARE COMPLIANCE AND VANDALISM

In reply to **Mr PISONI**.

The Hon. P.F. CONLON:

Question 1:

How many infringement notices, apprehensions, total of fines and repeat offenders have been dealt with?

In the 2006-07, financial year TransAdelaide prescribed Officers issued a total of 6 847 Ticket Infringement Reports for 1.6 million passengers checked. This represents a detected fraud rate of 0.43 per cent.

Question 2:

How much of any money paid in fines goes to TransAdelaide, or does the whole amount get paid to Treasury?

All monies collected from infringement notices are paid to the Department of Treasury and Finance.

Question 3:

Of the joint TransAdelaide and SAPOL operations to detect fraud and antisocial behaviour, how many are budgeted for this financial year?

TransAdelaide budgets a minimum of three joint TransAdelaide/SAPOL special operations per month targeting hot spots identified through offence analysis, which includes employee

and customer feedback. In addition, daily roving teams are assigned to all lines on an established rotating basis, which ensures all services are covered quarterly.

Question 4:

What programs are in place for offenders who deface TransAdelaide property and are apprehended?

Minors who commit offences against TransAdelaide attend Family Conferences. Most minors, and who the police and the court assess as suitable, are assigned a youth worker who organise a conference with the offender, his/her supporter (relative, carer, foster carer, friend etc), the victim/s, TransAdelaide officer and a police youth worker. Other parties that are caught by police are put through the normal judicial process.

PUBLIC TRANSPORT FUEL COSTS

In reply to **Mr PISONI**.

The Hon. P.F. CONLON: For 2006-07, fuel costs accounted for approximately 11 per cent of running the entire public transport system.

TRANSADELAIDE ENVIRONMENTAL ISSUES

In reply to **Dr McFETRIDGE**.

The Hon. P.F. CONLON: As a rail operator TransAdelaide generates a large amount of waste ballast as a result of track upgrades and re-sleepering. Historically waste ballast has been disposed of to landfill.

In line with South Australia's Strategic plan target to reduce waste to landfill by 25 per cent by 2014, Soil and Groundwater Consulting was engaged to look into other solutions for the long term management of waste ballast.

Soil and Groundwater Consulting recommended a screening trial which was carried out in 2006. The screening process was trialled and proved effective in providing cost savings, a significant reduction of the amount of waste TransAdelaide sends to landfill and a significant reduction in the demand for new rock to be mined as the screened ballast can be reused.

When screening the waste ballast the process is most effective when there is no moisture in the spoil to be screened, and as such there was a risk of dust generated through the process. Measures to address the dust were identified and instituted, including screening at remote locations and appropriate personal protective equipment being worn.

TRANSADELAIDE RAIL CONTRACT PAYMENTS

In reply to **Dr McFETRIDGE**.

The Hon. P.F. CONLON: Rail car contract payments made to TransAdelaide in 2006-07 were \$93.494 million, slightly less than the \$93.633 million estimate shown in Budget Paper 4, Volume 2, page 6.82, described as 'Sale of Goods and Services'.

The \$14.74 million decrease in 2007-08 from the estimated 2006-07 payments relates to a reduction in TransAdelaide's ongoing cost structure, primarily as a result of the transfer of rail asset ownership from TransAdelaide.

LAND MANAGEMENT CORPORATION

In reply to **Mr HAMILTON-SMITH**.

The Hon. P.F. CONLON: The following table identifies the total dividends that the Land Management Corporation (LMC) has paid to the Government over the past six financial years.

Financial year	\$'000
2000-01	1,844
2001-02	3,028
2002-03	6,133
2003-04	51,479
2004-05	2,180
2005-06	25,686

FUTURE ICT SAVINGS

In reply to **Mr HAMILTON-SMITH**.

The Hon. P.F. CONLON: The Department of Treasury and Finance commissioned consultants Ernst & Young to establish a baseline data set for ICT usage in 2003-04 across all Government agencies (including Public Non-Financial Corporations).

A direct like-for-like comparison between the previous contracts and the new Future ICT contracts is not possible, as those contractual

arrangements were re-organised to achieve better business fit, and to derive better value for money for the State. The number of new contracts signed, under the Future ICT Tranche 1 Program is 31. This replaces the 16 contracts that were pre Future ICT.

For example, where previously agencies purchased their file servers from EDS at the same time as purchasing the required support services, these have now been split, allowing the State to obtain better purchase prices. The EDS contract was only 1 of a number of contracts for ICT services. The \$30 million annual saving was calculated against all ICT expenditure, not just the EDS contract.

SMART STATE PC DONATION PROGRAM

In reply to **Mr HANNA**.

The Hon. P.F. CONLON: I provide the following information:

The program was established to assist community organisations and support publicly spirited activities. Allocations made under the scheme take into consideration equity issues and acknowledge the claims of socially and economically disadvantaged groups.

Equipment is provided on the condition that it will be used for purposes consistent with the recipient's core community activities. In effect, equipment is donated on the basis that it will be used for community or public activities, not as a reward or incentive for participating in those activities.

Donations are only made to organisations and groups; not individuals (with the exception of children under care of the State).

As a general guide, the following groups and programs are given preference when applications are considered (not in any order of priority):

- Established volunteer organisations
- Government clients (e.g., children under care of the State)
- Government programs, operations or services (e.g., schools, Network Centres)
- Special needs groups (e.g., rural and disadvantaged schools, indigenous groups and schools)
- Charitable and benevolent organisations (for the relief of poverty, sickness and the aged, etc.)
- Non-government organisations which receive government funding
- Community focussed non-profit and clubs (e.g., museums, resource centres and neighbourhood centres)
- Community education and self help organisations
- Public counselling and support services; and
- Any other organisation that can demonstrate a benefit to the community (e.g., research activities, health promotion, heritage activities).

The former Department for of Administrative and Information Services (DAIS) assumed the task of coordinating the application process and promoting the scheme.

The Smart State PC Donation Program is currently administered by the Department of the Premier and Cabinet (DPC).

COUNTRY HOSPITALS

In reply to **Ms CHAPMAN**.

The Hon. J.D. HILL: I am advised:

The South Australian Country Health Care Plan is being developed and current targets for 2007-08 do not reflect the transfer of health services to country areas as proposed in the South Australia Health Care Plan.

SOUTH AUSTRALIAN AMBULANCE SERVICE

In reply to **Ms CHAPMAN**.

The Hon. J.D. HILL: I am advised:

The level of debt within SA Ambulance Service (SAAS) reflects the underlying principles contained in the Health Service Agreement between SAAS and the Minister for Health.

SAAS is dedicated to providing all South Australians with the highest quality pre-hospital medical emergency care and patient transport, irrespective of the patient's ability to pay. In view of this, SAAS has had a long-standing, Revenue Collection Policy that provides for the write-off of debts in situations where there is reasonable evidence that the debt will not be recovered or where the costs of recovery are likely to exceed the amount recovered. This has been a bi-partisan policy for many years and acknowledges that the provision of emergency ambulance services is a public good and not contingent on an individual's ability to pay.

In 2005-06 the cost of bad and doubtful debts totalled \$6.5 million.

Of this, \$2.662 million related to patients who had mental health problems requiring ambulance transport, for example, where patients were detained under the Mental Health Act 1993. Bad debts of \$1.369 million related to conveyances of the homeless and destitute and \$1.521 million related to those unable to pay who were Indigenous and Torres Strait Islanders.

The balance included:

- pensioners (note that as pensioners are entitled to a 50 per cent rebate, only the component of the debt payable by the pensioner is written off)
- deceased persons with no estate
- cases where the debtor cannot be found; and
- submissions received by the SAAS Executive to write-off invoices due to extenuating circumstances, including child abuse and severe hardship.

A reasonable attempt is made to seek recovery of the debts. Debt write-off decisions are made consistent with the Financial Delegations Policy and based on appropriate evidence and criteria. A debt collection agency undertakes recovery for SAAS.

SAAS also has a policy that if a debtor cannot afford to pay the account in one payment, regular instalments over a one year period are negotiated.

SA SCHOOL DENTAL SERVICE

In reply to **Ms CHAPMAN**.

The Hon. J.D. HILL: I am advised:

The total hours of dental services provided by the School Dental Service did reduce in 2006-07 for the reason outlined in footnote (k).

Most children do not have a School Dental Service clinic in their grounds. Hence, over 80 per cent of parents have always been required to take their children to booked appointments. At these appointments, dental therapists have the opportunity to discuss the results of the check-up and explain the options for treatment.

About 20 per cent of children do have a School Dental clinic in their school grounds. Prior to 2006, children attending these schools and whose parents had signed an enrolment form for their child to participate in the School Dental Service, were frequently brought directly from the classroom to the clinic for examination and treatment. This approach was particularly efficient as it allowed the clinic to continue to provide clinical services when a booked patient failed to attend an appointment or cancelled with little notice.

In 2006, the SA Dental Service recognised that the parents of children who were brought directly from the school classroom were not receiving the explanation of treatment options and their risks.

As a result, the School Dental Service adopted new appointment processes. Now all appointments are booked and parents are required to attend with their children. This new approach has significant benefits. It also ensures that parents are present when School Dental staff are conveying messages about their child's diet and oral hygiene. Given the recent increases in decay rates among children this opportunity for health promotion is particularly important.

While the new procedures have significant benefits, they have led to the loss of the ability for the filling of 'casual' gaps in appointment books with children who are brought across from the classroom at short notice. This has had an impact on clinical output that is reflected in the budget papers.

ROYAL ADELAIDE HOSPITAL EQUIPMENT PURCHASE

In reply to **Ms CHAPMAN**.

The Hon. J.D. HILL: I have been advised:

The da Vinci Robotic Surgical system was generously donated by the Pickard Foundation. In donating the equipment to the Royal Adelaide Hospital, Gordon Pickard aimed to provide access to robotic surgery and its associated benefits to both public and private patients in South Australia.

As a public hospital, the Royal Adelaide Hospital is required to provide equity of access to both public and privately insured patients based on clinical need. Both public and private patients have had access to the machine.

Discussions with private health funds for reimbursement or the establishment of a fee for privately insured patients were unsuccessful. Private funds are not required to meet theatre costs of private patients in public hospitals.

Any proposals to sub-let the equipment would require sub-letting of the theatre as it is not possible to 'readily' transport the equipment

on a regular basis. This would have a number of practical issues associated with it including:

- The theatre is within a public hospital theatre suite and therefore does not meet the requirements of the Australian Health Care Agreement and the private insurers for payment of a private operating fee
- Non medical staffing (nursing) is highly specialised and are currently only employed in the public sector
- The theatre suite is fully utilised (other than weekends) for other procedures when the robotic surgery is not undertaken.
- Patients need to be recovered and remain in hospital for 2-3 days.

The State Government discussed the generous donation with Mr Pickard at the time of the offer and it was agreed the robotic system provided an opportunity to provide the latest technology with its improved outcomes to all South Australians. There is no intention to withdraw this service, by selling the equipment.

INNER SOUTHERN COMMUNITY HEALTH CENTRE

In reply to Mr HANNA.

The Hon. J.D. HILL: I am advised:

Many of the services and staff from the Southern Primary Health—Inner Southern (previously known as Inner Southern Community Health Centre) will move into the GP Plus Health Care Centre at Marion which will open in late 2009.

The planning process for the GP Plus Health Care Centre at Marion will examine the type and scope of outreach services to be provided, and those that will continue to be provided at the Southern Primary Health—Inner Southern site.

Planning for the GP Plus Health Care Centre at Marion will be informed by consultation with community members and other services to identify where the needs and how best to meet these.

ROYAL DISTRICT NURSING SERVICE

In reply to Ms CHAPMAN.

The Hon. J.D. HILL: I am advised:

None of the target episodes of care for the Royal District Nursing Service are for telephone 'only' consultations. Each one of these episodes of care involves approximately 15 home visits from a nurse plus approximately 90 minutes of case coordination and care planning. Case coordination and care planning may include a number of phone calls to other health services or to the GP on behalf of the client.

IMVS

In reply to Ms CHAPMAN.

The Hon. J.D. HILL: I am advised:

Revenue of the IMVS is derived from a number of sources relating mainly to the provision of diagnostic services. The 2007-08 Budget includes an estimated \$43 million associated with Medicare reimbursements, Department of Veteran Affairs bulk billing, receipts from health funds and patient receipts. The IMVS also generates income for other diagnostic services which relate to DNA sequencing reagents and lanes and veterinary services to the research community, including animal agistment, products and engineering services, which for 2007-08 are estimated at \$4 million.

The 2007-08 Budget for revenue also includes:

- \$7 million in FBT transitional grant payments from the Commonwealth
- \$4 million in funding from the National Health and Medical Research Council.
- estimated grant funding revenue of around \$7 million from a range of institutions, including, the University of Philadelphia, Garnett Passe and Rodney Williams Memorial Foundation, National Institutes of Health (USA), Australian Research Council, Cancer Council, National Heart Foundation, Diabetes Australian and various other industry bodies
- an estimated \$10 million in revenue relating to the activities of Medvet Science, a subsidiary of the IMVS, which supports, develops and markets the intellectual property of the medical and scientific staff of the IMVS and products that arise from research and developmental work; and
- interest receipts of around \$2.5 million.

Functions for which expenditure is incurred include a comprehensive range of diagnostic and consultative services in all branches of pathology across public and private hospitals, medical practitioners and specialists, industry and the general community. In addition,

the IMVS undertakes a range of research programs in the field of human disease and contributes to the education, teaching and training of students.

The projected expenditure for IMVS includes approximately \$100 million in employee-related costs which includes a range of scientific, technical and support staff who provide the core functions outlined above. The remaining expenditure relates to goods and services that include considerable medical and laboratory supplies, which comprises chemicals and reagents, laboratory expendables, patient consumables, test kits, specimen containers, medical gases, disposable medical supplies and laboratory media.

INCREASE IN THE 2007-08 BUDGET

In reply to Ms CHAPMAN.

The Hon. J.D. HILL: I am advised:

Indexation amounts will differ depending on the nature of the item. For example, current decisions include 2.5 per cent indexation for goods and services but provisions for wage increases will differ depending on Enterprise Bargaining outcomes. Similarly, indexation of grants to NGOs are indexed at higher rates than standard supplies and services expenditure to reflect that cost structures of NGOs are weighted more towards employee related costs. As indexation is not separately identified for each decision a definitive estimate cannot be extracted from current management and reporting systems.

It needs to be noted that this methodology of managing the State's budget has been and is the same as in past years. As a guide however, indexation on the 2006-07 Budget for goods and services, depreciation and grants and subsidies equates to around \$29 million.

APPROVED SAVINGS

In reply to Ms CHAPMAN.

The Hon. J.D. HILL: I am advised:

As part of the 2007-08 Budget process this Government allocated significant additional funding on a recurrent basis to meet increasing demand in metropolitan public hospitals and rising non-wage costs associated with the provision of health services. The amount allocated across health for 2006-07 totalled \$59.3 million.

The funding for this particular decision was allocated to individual metropolitan and country regions as outlined below and not to individual health units:

Central Northern Adelaide Health Service	\$34.1 million
Southern Adelaide Health Service	\$15.0 million
Repatriation General Hospital	\$ 2.1 million
Children Youth and Women's Health Service	\$ 5.1 million
Country Health SA	\$ 3.0 million

Notwithstanding that the funding allocations were made at the regional level and not individual health units, the Department of Health estimates that the components relating to Royal Adelaide Hospital and Flinders Medical Centre are \$15.4 million and \$12.7 million respectively.

VARIATION IN EXPENDITURE BUDGETS

In reply to Ms CHAPMAN.

The Hon. J.D. HILL: I am advised:

There are a considerable number of other factors contributing to the remaining increase in expenditure, which represents 0.4 per cent of total Health expenditure for the 2006-07 Budget, including:

- expenditure associated with increased revenue flowing from the commercialisation of intellectual property—\$2.1 million
- expenditure to meet the 2006-07 cost of the Financial Management Improvement Project of the Department of Health which has been established to implement a range of financial and budgetary reforms across Health—\$1.6 million
- expenditure relating to the APY Lands Substance Abuse Facility—\$1.5 million
- expenditure in 2006-07 approved as part of the 2007-08 Budget relating to additional resources to support reform of clinical services—\$0.8 million
- Commonwealth funded expenditure for the Transplantation Services Program—\$0.8 million
- funding from the Department for Families and Communities for the Street to Home program—\$0.8 million
- funding from PIRSA for drought response measures—\$0.4 million
- Commonwealth funding for the patient level data development study of outpatient care services—\$0.2 million.

ROYAL FLYING DOCTOR SERVICE

In reply to **Hon. G.M. GUNN**.

The Hon. J.D. HILL: I am advised:

The responsibility for the funding of remote airstrips is shared between various State and Commonwealth agencies and the communities themselves. The Department for Transport, Energy and Infrastructure (DTEI) has the lead agency role in the SA Government's participation in a Australian Government four year program of cooperative funding of remote airstrips announced in the 2007-08 Budget.

DTEI has allocated \$300 000 in 2007-08 to the program.

This program, called 'Safer Runways in Remote Australia', is aimed at remote communities that depend on their aerodromes for access to health services through the Royal Flying Doctor Service (RFDS) or have a Commonwealth subsidised air service. The objective of the program is to provide, where possible, year round all weather access to increase the safety of aircrafts using the airstrip; improve delivery of essential services; and meet the operational requirements of the RFDS.

Funding will be application based and open to remote communities, including Aboriginal communities, with airstrips in the more remote areas of the State.

HEALTH REFORM

In reply to **Ms CHAPMAN**.

The Hon. J.D. HILL: I am advised:

The projected savings of \$89.9 million over the period 2008-09 to 2010-11 are related to a range of health reforms. Efficiencies in the Health Portfolio will be delivered by a number of strategies including:

- changes in clinical practice to achieve national best practice in length of stay, including increasing the proportion of patients who have surgery on the day of admission
- increased investment in primary health care and the development of primary health care networks resulting in a greater connection between general practitioners and other parts of the health system. Cost efficiencies are projected in this area as the cost of delivering 'out-of-hospital services' are lower than the cost of providing services in hospital; and
- the introduction of new initiatives to assist in the long term management of people with chronic disease and the implementation of a number of healthy lifestyle programs, which overtime will assist in keeping people healthy and reducing the burden on the hospital system. Consistent with the above, cost efficiencies will be gained from investing in these early intervention and prevention programs. It is also forecast that the programs will contribute to reducing growth in separations by about 1 000 in 2007-08 rising to about 15 000 by 2016-17.

GENERATIONAL HEALTH REVIEW REPORT ON WEBSITE

In reply to **Ms CHAPMAN**.

The Hon. J.D. HILL: I am advised:

No actual documents were lost, only access to them was affected. There were a number of Generational Health Review documents and reports unable to be accessed including:

- information about the review
- copies of submissions received
- Pathology Review reports
- Media Releases and presentations.

SURPLUS EMPLOYEES

In reply to **Ms CHAPMAN**.

The Hon. J.D. HILL: I am advised:

MP'S AND VIP'S VEHICLES

In reply to **Mr GRIFFITHS**.

The Hon. M.J. WRIGHT: Members of Parliament pay a fixed contribution towards the cost of a leased vehicle.

This payment is less than the actual cost incurred by Fleet SA.

At the end of the financial year the Department of Treasury and Finance provide Fleet SA with additional funding (called acquittal) to meet the shortfall in the actual cost of the MP Fleet.

Once the actual acquittal amount is paid at the end of the financial year 2006-07 the net cost of the sub-program will be for the Ministerial/VIP Fleet, which is expected to reach the original budgeted amount.

RESIDENTIAL PROPERTIES

In reply to **Mr GRIFFITHS**.

The Hon. M.J. WRIGHT: The performance indicators for Government Employee Residential Property Management are shown in Budget Paper 4 Volume 2, page 6.49, Sub-program 8.5.

Amongst these indicators is a target of 2 650 residential tenancies managed for 2007-08. The point to be clarified is the difference in meaning between 'tenancies' and 'properties'. A tenancy is established each time a property is occupied by an incoming tenant. The total number of tenancies managed in any year includes instances where a number of different tenants may occupy the same property, either owned or leased, during the financial year.

I am advised that typically there is approximately a 40 per cent turnover of tenants across the whole housing stock as a result of existing employment contracts terminating and new contracts commencing during the year. This results in more tenancy agreements being established each year than the number of owned and leased properties.

The current housing portfolio consists of 1 637 owned and 291 leased properties.

MANAGEMENT OF EXCESS EMPLOYEES

In reply to **Mr WILLIAMS**.

The Hon. M.J. WRIGHT: I am advised that as at 31 May 2007. Placement Services managed 43 excess employees. Of these nine excess employees are in alternative positions, five of which have been in unfunded placements (unassigned to a position) for more than 12 months, one in an unfunded placement (unassigned to a position) for at least 6 months and three in unfunded placements (unassigned to a position) for at least three months.

FULL TIME EMPLOYEES

In reply to **Mr WILLIAMS**.

The Hon. M.J. WRIGHT: The 2006-07 full time equivalents for sub-program 8.2 Public Sector Workforce are as follows:

PSWR	42.41
Injury Management	15.42
Placement Services (includes excess employees)	24.60
Total	82.43

SURPLUS EMPLOYEES

In reply to **Hon. R.G. KERIN**.

The Hon. M.J. WRIGHT: I have been advised the Office for Recreation and Sport had zero surplus employees as at 30 June 2007.

POSITIONS ABOLISHED AND CREATED

In reply to **Hon. R.G. KERIN**.

The Hon. M.J. WRIGHT: I have been advised the Office for Recreation and Sport had zero positions costing \$100,000 or more either abolished or created between 30 June 2006 and 30 June 2007.

BREAKDOWN OF GRANTS

In reply to **Hon. R.G. KERIN**.

The Hon. M.J. WRIGHT: I am advised that the attached lists of clubs and community groups have received grants for the financial years 2005-06 and 2006-07. Details regarding the amount and purpose of each grant, and whether the grant was subject to a grant agreement as required by Treasurer's Instruction No. 15 are also attached. Recreation, Sport and Racing approves a significant number of grants to active recreation and sporting organisations and projects through the Office for Recreation and Sport each year.

The Office for Recreation and Sport manages five main funding programs; the Active Club Program, Community Recreation and Sport Facilities Program, Statewide Enhancement Program, MOVE IT!—Making Communities Active Program, and the Inclusive Recreation, Inclusive Sport Program.

Due to the large number of grants approved under each of these programs, a separate spreadsheet has been prepared for all of the programs, outlining all grant recipients, the grant amount, purpose, and whether it was subject to a grant agreement.

Active Club Program				
FP	Organisation	Amount	Project	TI15
May 2006	Prince Alfred Old Collegians Badminton Club	\$870.00	To assist with the purchase of umpire stand and equipment.	Yes
May 2006	Colonel Light West Tennis Club	\$4,500.00	To assist with a facility upgrade.	Yes
May 2006	Salisbury Cycle Speedway	\$2,000.00	To assist with the purchase of sporting equipment and uniforms.	Yes
May 2006	Nairne Golf Club	\$4,500.00	To assist with the installation of shelter and upgrade to kitchen facilities.	Yes
May 2006	Woodville Lacrosse Club	\$2,080.00	To assist with the purchase of sporting equipment and uniforms.	Yes
May 2006	Scouts SA—Ridgehaven Scout Group	\$4,000.00	To assist with the purchase of sporting equipment.	Yes
May 2006	Noarlunga Lions Womens Soccer Club	\$3,500.00	To assist with the purchase of portable goals and uniforms.	Yes
May 2006	Loxton Golf Club	\$5,000.00	To assist with the purchase of motorised golf carts.	Yes
May 2006	Mount Gambier Legends Baseball Club	\$2,790.00	To assist with the purchase of sporting equipment.	Yes
May 2006	Kensington Baseball Club	\$10,500.00	To assist with the installation of safety fencing.	Yes

UNDERGROUND FUEL TANKS PROGRAM

Testing, Consulting and Drilling

Contract for the provision of environmental consulting, drilling and laboratory services to the program to identify and assess the condition of underground tanks previously used to store fuel used by State Government agencies.

Term	1 April 2006 to 31 July 2007
Estimated expenditure over contract term	\$1,100,000 (note: actual expenditure will vary due to demand which will vary according to need)

Contractors

Environmental	Resource and Environmental Management Pty Ltd GHD Pty Ltd
Drilling	K & W Geodrill Pty Ltd Drilling Solutions Pty Ltd
Laboratories	MGT Environmental Consulting Pty Ltd Australian Laboratory Services Pty Ltd

ENTERTAINMENT CENTRE EVENTS

In reply to **Mr PENGILLY**.

The Hon. J.D. LOMAX-SMITH: I have been provided with the following information:

The Adelaide Entertainment Centre held 66 publicly ticketed events in 2006-7 and has budgeted for 59 publicly ticketed events in 2007-08.

ABORIGINAL TOURISM

In reply to **Mr PENGILLY**.

The Hon. J.D. LOMAX-SMITH: The South Australian Tourism Commission has provided the following information:

The percentage of the development budget allocated for industry assistance to the various sectors for 2007-08 is:

Aboriginal tourism	11.7 per cent
--------------------	---------------

Wine and Food	11.7 per cent
Cultural and Geographical Heritage	6.3 per cent

TOURISM PROMOTION

In reply to **Mr PENGILLY**.

The Hon. J.D. LOMAX-SMITH: The South Australian Tourism Commission was one of several participating government agencies to the Taxi Tourism CD and Training project—the others being the Department for Further Education, Employment, Science & Technology (DEFEST) and Transport SA.

The SATC's financial contribution to this project was \$21 000.

Whilst no further specific financial provision has been made in 2007-08 towards this particular project, the SATC has allocated \$20 000 towards yet-to-be-finalised co-operative initiatives with the Adelaide metropolitan taxi sector as a whole, designed to lift customer service standards—and the profile and standing of the sector generally.

AMERICAN FOUL BROOD DISEASE IN HONEY BEES

In reply to Mr VENNING.

The Hon. R.J. McEWEN: Three issues were recently raised by the member for Schubert in relation to South Australia's honeybee industry. In broad terms, these issues focused on:

- the prevalence of American Foulbrood (AFB) within South Australian beekeeping operations;
- the progress of the SA Honeybee Industry Strategic Plan Implementation Committee (HISPIC) with the development of its implementation action plan; and
- field inspection resources available in PIRSA's Apiary program.

In relation to AFB, the data available suggests that the approximate prevalence of AFB infected beekeeping operations has been declining. In 1998, a survey confirmed that 32 per cent (or just under 1 in 3) operations had detectable levels of AFB. By June 2003, after the implementation of a targeted regulatory program, this decreased to 20 per cent (or 1 in 5) operations. Since June 2003, the approximate prevalence of AFB has continued to decrease, even though the focus of the program changed to include a move towards education. This is reflected by the fact that the approximate prevalence was 9 per cent (or less than 1 in 10) of operations by June 2006. At June 2007, the number of tested operations with detectable levels of AFB remained at 9 per cent. These results would suggest that South Australia's honeybee industry is well on its way to achieving its Industry Strategic Plan endemic disease target of 'less than 9 per cent of operations being affected by AFB'.

In recognition of industry's under preparedness for an exotic honeybee pest or disease incursion, the SA Honeybee Industry Strategic Plan Implementation Committee (HISPIC) supports the move to industry management of AFB (via QA programs) so that available State resources can focus on exotic honeybee pest and disease surveillance, training and preparation. As I understand, HISPIC is proposing to liaise with existing industry QA program providers to expand (or strengthen) the scope of their food safety based QA programs to include hive biosecurity. This move to self-regulation of AFB may not be as daunting as it seems given that nearly half of the commercial honeybee sector is already on some form of a QA program. The bigger challenge will be having producers pay for the audit. Details about the proposed QA focus are still being finalised and will be forwarded to industry in the coming months.

As the information above demonstrates, the restructuring of the PIRSA's Apiary Program is not unduly impacting on the incidence of AFB. Consequently, the number of field inspectors is unlikely to alter in the short-term.

CLOSURE OF REGENCY TAFE BOOKSHOP

In reply to Mr GRIFFITHS.

The Hon. P. CAICA: The previous commercial operator, Bookshelf, ceased trading at the end of 2001. The then Director of Regency Institute of TAFE, decided that the institute would take over the business and it began operation at the Regency Bookshop in November 2001.

The Regency campus bookshop had been under close financial scrutiny throughout its six year operation and particularly since January 2006, with the implementation of accrual accounting that highlighted potential shortcomings in the bookshop's financial and stock systems.

Significant short term additional management support was provided to investigate and review all systems, policies and procedures pertaining to the operation of the bookshop. All bookshop staff were fully engaged in the process and were informed and given opportunity for input through weekly staff meetings.

A departmental auditor was engaged in the latter half of 2006 to independently review the ongoing financial viability of the bookshop. Based on approximately ten months of intensive operational review and financial scrutiny, it was determined that the TAFE SA Adelaide North bookshop was, and would continue to operate at a significant net loss.

It was also determined that the provision of bookshop services are readily available from the commercial sector in Adelaide.

The Regency campus bookshop ceased trading on 6 July 2007. Implications for staff and students

All six bookshop staff are permanent government employees and their ongoing employment is assured. Two of the affected staff have been placed into temporary positions within the Institute, and another has been permanently placed. TAFE SA Adelaide North is actively

working to fully utilise the skills and talents of the remaining affected individuals.

EMPLOYEE COSTS AND BENEFITS

In reply to Mr PISONI.

The Hon. P. CAICA: The difference relates to an estimate of the workers compensation expenses/costs for 2006-07 which covers the levy and actual workers compensation expenses paid to an employee on WorkCover.

The difference reflects a reclassification of the budgeted 2006-07 workers compensation expenses from employee benefits and costs as shown in the 2006-07 Portfolio Statements to other expenses, in line with the presentation of those costs in the 2007-08 Portfolio statements.

APPRENTICESHIP EXPO

In reply to Mr GRIFFITHS.

The Hon. P. CAICA: The Minister for Employment, Training and Further Education has advised:

JobsFest 07

JobsFest 07, held at the Adelaide Entertainment Centre on Wednesday 4 July 2007, gave local job-seekers the chance to make personal contact with employers, to register for training and work opportunities, and to access tailored assistance from the South Australia Works in the Regions program. JobsFest was presented in association with Local Community Partnership (LCP) organisations, Western Futures and Youth Jet.

Over 1,500 people attended the event and learnt about employment opportunities available in a range of fields including engineering, motor trades, defence, sport, policing, building industries, aged and child care, retail and banking.

Approximately 500 direct job opportunities were promoted to people of all ages living in the Western and Eastern regions of Adelaide. Over 60 organisations, including representatives of job network agencies, group training organisations, industry groups and employers registered to provide part-time, full-time, casual and apprenticeship positions to job seekers attending JobsFest 07.

In addition, 250 registration forms were received from people interested in being involved in other South Australia Works programs that will provide them with learning, training and work opportunities.

South Australia Works in the Regions—Eastern and Western Region contributed \$20,000 towards JobsFest 07.

Apprenticeship Fest

Two events will be held in 2007. The inaugural event will be held at the Campbelltown Civic Centre on 11 September 2007 from 3pm-8pm and will be run by the Eastern Adelaide LCP—YouthJET.

The second event will be held at the Adelaide Entertainment Centre on 25 September 2007 from 6.00pm-8.30pm and will be run by the Western Adelaide LCP—Western Futures in conjunction with the North East LCP—Pathways North East.

Apprenticeship Fests will allow parents and young people to make contact with Group Training Companies (GTOs) and get information and referrals for apprenticeships and traineeships.

Industries are conducting recruitment processes around this time for apprenticeships and Apprentice Fest is an ideal opportunity to target potential school leavers.

GTOs will take registrations of interest and will encourage the young people to submit resumes so that they can be considered for upcoming intakes.

The main focus is on young people that are leaving school this year to enter the workforce or are unemployed and aged between 18-22 years.

DFEEST will establish a booth at both events to promote the South Australia Works program and Traineeship and Apprenticeship Services. In addition, the South Australia Works program is providing sponsorship of \$4,000 from South Australia Works in the Regions towards the two events.

MONARCH COLLEGE

In reply to Mr GRIFFITHS.

The Hon. P. CAICA: TAFE SA commenced a licence agreement for the Advanced Diploma in Hospitality Management with Monarch College in 2003.

To date the TAFE SA's income for the licence agreement has been \$124 000.

The on-line degree commenced in 2006 with an income of \$110 000 in 2006 from student fees and \$77,000 in 2007, totaling \$187 000 for the degree. The total income for licence agreement and student fees from Monarch is \$311 000.

TAFE SA international licences yield an average of 40 per cent surplus and the on-line degree 20 per cent surplus.

APPRENTICE NUMBERS

In reply to **Mr PISONI**.

The Hon. P. CAICA: The National Centre for Vocational Education Research estimates that 10,100 apprentices and trainees completed their contract of training in the 12 months ending 31 December 2006. This represents an increase of 300 completions from year ending 31 December 2005.

GOODS AND SERVICES

In reply to **Mr GRIFFITHS**.

The Hon. P. CAICA: The Duke of Edinburgh's Award program's goods and services expenditure of \$222,000 budget is funded through revenue raised from:

- rental of equipment for expeditions
- donations
- gala dinner
- expedition fees
- registered operators' fees
- participant fees

The 2006-07 budget of \$222,000 is incorrectly classified as Sale of goods and services. Only \$18,000 should have been budgeted for Sale of goods and services. This revenue is for the rental of equipment for expeditions.

The \$204 000 is the 2006-07 estimated result for other revenues which include donations, gala dinner, expedition fees, registered operators' fees and participant fees.

There is no short fall in the estimated total revenue raised for 2006-07.

VOLUNTEERING

In reply to **Mr GRIFFITHS**.

The Hon. P. CAICA:

Will the minister give us the base figure and indicate how he plans to increase that?

The base figure for the estimated 2007-08 increase to 4 200 is taken from the reported '2006-07 estimated result' of 3,926 (page 13.28) Young People's Engagement '2006-07 Estimated result for Performance Indicator No. of young people volunteering in their local communities through youth programs'.

The expected increase of 274 young people (or 6.9 per cent) is expected to come from an increased number of currently registered Duke of Edinburgh's Award participants completing the community service section of their Award.

In 2006-07 The Office for Youth reported an estimated 3 926 young people participating in its youth programs, consisting of:

- 1 200 young volunteers in Youth Advisory Committees;
- 1 226 young volunteers in the active8 Premier's Youth Challenge; and
- 1 500 new young volunteers in the Duke of Edinburgh's Award.

Over 3 500 young people are currently registered to undertake the Duke of Edinburgh's Award and have, until their 25th birthday, to complete their chosen Award. In 2007-08 the Office for Youth will focus on young people who have already registered to undertake the Duke of Edinburgh's Award but are having trouble completing their community service section.

The Office for Youth has a number of strategies to engage and assist these young people to complete their community service section and their Award. These strategies include conducting gold participant forums, targeted participant visits and a peer mentoring program.

It is envisaged that through these strategies the completion rate and therefore the number of young people participating in volunteering in their local communities through the Office for Youth programs will increase.

The Office for Youth will also invest resources to ensure that young people currently registered on the 'Youth Participation Register' are provided with opportunities to participate in local

communities. This is achieved through the SAY WHAT? online magazine. This magazine provides information on a range of volunteer opportunities that are available for young people in the community.

In what sort of areas would they be encouraged to volunteer?

Through Youth Advisory Committees young people volunteer their time to work as part of a small group with their local council to develop and implement activities for their local communities and to participate in decision making on council issues. Young people also participate in skills training and arrange community events for National Youth Week.

Through the active8 Premier's Youth Challenge program, young people are encouraged to volunteer in their schools' local community. Many young people volunteer their time in aged care facilities, surf lifesaving clubs or in local parks undertaking conservation activities.

Through the Duke of Edinburgh's Award young people are encouraged to take up volunteering in areas of interest to them. Young people volunteer in a range of areas, such as with the Australian Red Cross, the Youth Ambassador program, sporting clubs as coaches, umpires, and committee members, youth groups, churches, YMCA, YWCA, World Vision, Greening Australia, RSPCA and GAP Australia, which is an international service that assists young people to volunteer in aged care, outdoor education and teaching English as a second language.

SURPLUS EMPLOYEES

In reply to **Mr GRIFFITHS**.

The Hon. P. CAICA: As at 30 June 2007, the Office for Youth did not have any surplus employees.

INSURANCE FOR YOUTH NETWORKS

In reply to **Mr GRIFFITHS**.

The Hon. P. CAICA: I am advised that the government self insures against its own risks but not on behalf of outside bodies. This is applicable across government and is not restricted to the Office for Youth. Small organisations may apply for public liability insurance under an appropriate auspicing body that will carry the associated risks on their behalf.

As a result of this advice, the Minister for Youth's Network Grants will continue to be administered as per the funding guidelines and the government will not bulk purchase insurance for these networks.

The issue you raised affects three networks who have received funding through these grants. The Office for Youth will contact the networks and advise them of the alternate auspicing options that are available.

GRANT RECIPIENTS

In reply to **Mr GRIFFITHS**.

The Hon. P. CAICA: In financial years 2005-06 and 2006-07 all grants were subject to a grant agreement as required by Treasurer's Instruction No. 15. The following grants were administered during these financial years:

Youth Engagement Grants

Youth Engagement Grants of \$20 000 per annum for three years are available to agencies working with young people aged 12-25 to enable them to assist young people in their personal and social development. Non-government and government agencies can apply for funding to conduct projects that:

- strengthen partnerships;
- support young people's engagement;
- promote creative leadership.

2005-06

- Migrant Resource Centre \$20 000
- Para West Adult Campus \$20 000
- SA Unions \$20 000
- Southern Fleurieu Health Service \$20 000
- Aboriginal Drug and Alcohol Council SA Inc \$20 000
- Australian Festival for Young People \$20 000
- Australian Refugee Association \$24 000
- Rural City of Murray Bridge (YAC) \$24 000.

2006-07

- Migrant Resource Centre \$20 000

- Para West Adult Campus \$20 000
- SA Unions \$20 000
- Southern Fleurieu Health Service \$20 000
- Chiton Rocks Surf Lifesaving Club Inc \$20 000
- Multicultural Youth South Australia Inc \$20 000
- Northern Community and Flinders Connect Inc \$20 000
- Southern Youth Theatre Ensemble Inc \$20 000
- Rural City of Murray Bridge \$20 000
- YWCA of Adelaide \$20 000
- Youth Affairs Council of SA (YACSA).

Grant funding is provided to the Youth Affairs Council of SA (YACSA) to enable them to provide a range of services to the youth sector and the Government of South Australia, in collaboration with and/or on behalf of the Office for Youth. Services provided:

- (a) support to the youth sector through strengthening partnerships across the youth sector and between the Government of South Australia and the youth sector;
- (b) support to young people to be actively engaged in their own communities, in programs and in decision making in government and non government organisations; and
- (c) promotion and encouragement of creative leadership within the youth sector, through providing professional development support to youth sector workers.

- 2005-06
- \$261 601.60
- 2006-07
- \$296 001.60.

EXPENDITURE ON ALL GRANTS

In reply to **Mr GRIFFITHS.**

The Hon. P. CAICA: During 2005-06 and 2006-07 the Department of Further Education, Employment, Science and Technology provided grants to 224 organisations with the value of the grant being greater than \$20 000, for a variety of purposes.

The Commonwealth VET in Schools and Worldskills grants did not have funding agreements for 2005-06 and 2006-07 but are currently in the process of ensuring a funding agreement is in existence that complies with TI15.

The CRC program does not require funding agreements as all recipients are South Australian Government Departments and no agreements are required under TI15.

Attachment A details each grant, grant recipient, amount of and purpose of the grant and Attachment B is a listing of all South Australian Government Transfers that are classified as grants in the Financial Statements. These grants do not have funding agreements as they are passing on Appropriation received from the Department of Treasury and Finance.

Attachment A

Grant	Recipient	Amount 2005-06	Amount 2006-07	Funding Agreement
Adult and Community Education	ASK Employment and Training	\$24,000.00		✓

Purpose of Grant

In reply to **Mr GRIFFITHS**.

The Hon P. CAICA: As at 30 June 2007, out of more than 3,000 FTE's, there were 51 DFEEST redeployees. The total employment cost of these employees included salary plus 24.4 per cent oncosts.

The table below provides information on the number and FTE of employees for each of the classification levels.

NATIVE VEGETATION AND MINES

In reply to **Mr WILLIAMS**.

The Hon. G.E. GAGO: I have been advised:

Amendments to the Native Vegetation Regulations in August 2003 extended the requirements for any clearance of native vegetation, including proposals by state government agencies and mining/petroleum companies to be offset by a 'significant environmental benefit' (SEB). Subject to the amendment requiring the establishment of an SEB, clearance for approved mining activities still remains exempt from the need to obtain a clearance consent under the Native Vegetation Act 1991.

The Native Vegetation Council (NVC) does not make a decision on the clearance of native vegetation for mining operations.

Any SEB requirements are determined in accordance with guidelines endorsed by the Native Vegetation Council in September 2005. The NVC, officers from DWLBC and PIRSA Minerals and Energy Division cooperatively developed those guidelines, including substantial consultation with the mining industry prior to their finalisation. The purpose of the guidelines is to achieve an effective and efficient environmental outcome through a transparent process.

'One stop shop' processes have been put in place where the Native Vegetation Council has delegated responsibility for administration of the significant environmental benefit guidelines to the Mining and Rehabilitation Branch, PIRSA. This is part of the mining lease approval process with delegation to PIRSA to incorporate the establishment of SEB as part of any mining approval process.

BRANCHED BROOMRAPE

In reply to **Mr PEDERICK**.

The Hon. G.E. GAGO: I have been advised:

1. While the technology for the application of methyl bromide is quite old and well known, researchers working with the Branched Broomrape Program continue to assess the effectiveness and application methods for the other two fumigants, Basamid (a granular fumigant) and Interceptor (a pine oil based soil drench).

The program has used Methyl Bromide since the year 2001 and Basamid and Interceptor were introduced in 2005. While noting that branched broomrape has emerged in areas of paddocks that were not treated, all fumigants have performed with a high rate of success. Spring survey results are used to ascertain the effectiveness of the fumigants by treated site.

At the completion of the 2006 survey, methyl bromide has shown a success rate of 99.3 per cent over the six years it that it has been in use. In the two years that Basamid has been used, a 100 per cent

success rate is apparent and Interceptor has had a success rate of 96 per cent.

2. No new discoveries of branched broomrape were found outside of the branched broomrape zone last year.

A total of 36 new paddocks of branched broomrape infestations were found within the branched broomrape zone during the survey in the spring of 2006.

APPROPRIATION SPECIAL FUNDS ACCOUNT

In reply to **Mr GRIFFITHS**.

The Hon. G.E. GAGO: I have been advised:

The Accrual Appropriation Excess funds Special Deposit Account (AAEFA) was established in 1998-99 when accrual budgeting was introduced in South Australia. The purpose of the account is to provide resources, on a forward looking basis, for agencies to manage accruing employee entitlements and asset replacements for which there existed no immediate cash requirement.

Furthermore, the purpose of the AAEFA is to record all receipts and payments associated with surplus cash balances generated in agencies by the shift to accrual appropriation.

Funds are held in a special deposit account with expenditure of such funds governed by explicit approval by the Treasurer.

The balance in the fund is mostly due to the agency's depreciation expense being considerably greater than the Investing program on an annual basis.

SALE OF CROWN LAND

In reply to **Mr GRIFFITHS**.

The Hon. G.E. GAGO: I have been advised:

The land at Port Bonython was sold to the Minister for Infrastructure at market value. The Land Management Corporation was involved in the sale.

The land at Lochiel Park was transferred from the Department for Environment and Heritage to the Land Management Corporation at market value.

The land at Port Adelaide has been transferred to Port Adelaide Maritime Corporation at market value.

SOLID WASTE LEVY

In reply to **Mr GRIFFITHS**.

The Hon. G.E. GAGO: I am advised:

Apart from annual indexation increases, the solid waste levy was increased to \$10.10 (from \$5.09) per metropolitan tonne, and to \$5.05 (from \$2.56) per country tonne disposed to landfill, on 1 July 2003.
